

# 4700-04

## FERRULE

### SPECIFICATIONS

**Material** Steel

### DESCRIPTION

The Ferrule from the Coupling - Hydraulic family is crafted from durable steel, designed specifically for non-skive ferrule coupling applications. Its robust material ensures reliable performance and longevity in hydraulic systems. This component offers precise fitting and secure connections, enhancing the overall efficiency and safety of hydraulic assemblies.

Item number	Size 1
47000412	3/4"
47000416	1"
47000420	1 1/4"
47000424	1 1/2"
47000432	2"
