CARDAN FITTING MOD.42 KXM FEMALE CAP, STEEL

SPECIFICATIONS

Material	Galvanised steel	Connection 1 - Cardan type	KXM
Shape	Cap	Connection 1 - Sealing	Gasket

DESCRIPTION

The Cardan mod.42 KXM female cap is a galvanized steel design for reliable connection with a Cardan M42 type. Featuring a female KXM cardan connection with gasket sealing, this cap ensures secure and durable performance within the coupling-cardan family. Its robust material and precise design provide long-lasting protection and efficient sealing in various applications.
