CAMLOCK E MALE - HOSE FITTING, STAINLESS STEEL

SPECIFICATIONS

Material	Stainless Steel AISI 316	Connection 1 - Camlock type	E
Shape	Straight	Shape	Straight

Related Item: 1435-00, 1439-00, 1469-20, 1525-00

DESCRIPTION

The Camlock E male hose fitting is a straight fitting designed for secure connections, featuring a male Camlock type E interface. Made from durable Stainless Steel AISI 316, it ensures excellent corrosion resistance and longevity. This fitting belongs to the Coupling - Camlock family, providing reliable performance in demanding fluid transfer applications.
