PLASTIC SPIRAL YELLOW

SPECIFICATIONS

Temp min	-70 °C	Color	Yellow
Temp max	80 °C		

DESCRIPTION

The Plastic Spiral Yellow is a durable hose accessory designed to withstand temperatures from -70°C to 80°C. Its vibrant yellow color enhances visibility, making it ideal for various industrial and mechanical applications. This robust spiral provides reliable protection and organization for hoses, ensuring long-lasting performance in demanding environments.

Item number	Inner dia. Min	Thickness	Length	Length	Weight
