AC COUPLING 45° MALE UNF SWIVEL WITH O- RING - HOSE FITTING, STEEL

SPECIFICATIONS

Material	Steel	Connection 1 - Sealing	O-ring
Shape	45°		

Related Item: 1445-10

DESCRIPTION

The AC coupling 45° male swivel with O-ring is a steel hose fitting designed for reliable connection and sealing. Featuring a 45° shape and UNF thread type, it provides secure male swivel coupling with an O-ring seal, ensuring durability and leak prevention. Part of the Coupling - AC family, this fitting combines robust steel construction with precise engineering for optimal performance.
