

# 5C10410-2x

## CEJN 410 ESAFE

### SPECIFICATIONS

**Temp min** -20 °C **Temp max** 100 °C

### DESCRIPTION

The CEJN 410 eSafe is a quick connect coupling designed to meet EN 983 and ISO 4414 standards. It operates reliably within a temperature range of -20 to 100 degrees Celsius, ensuring safe and efficient fluid connections in demanding environments. This coupling combines robust performance with user-friendly design for versatile industrial applications.

Item number	Standard	Wp	Size 1	Size 2	Connection 1 - Force to connect
