## ADAPTOR JIS METRIC - BSP

### SPECIFICATIONS

<b>Type 1</b>	Male	<b>Shape</b>	Straight
<b>Type 2</b>	Male	<b>Material</b>	Steel

### DESCRIPTION

The Adaptor JIS metric - BSP is a straight coupling adapter designed with male connections on both ends. Crafted from durable steel, it belongs to the Coupling - Adapter BSP/mm/npt family, ensuring reliable and robust performance for metric to BSP thread conversions. Its sturdy construction supports secure and efficient fluid or gas connections.
