SWIVEL ELBOW 90° BEND BSP

SPECIFICATIONS

Type 1	Male	Shape	90°
Type 2	Female, swivel	Material	Steel

DESCRIPTION

The Swivel elbow 90° Bend BSP is a steel coupling adapter designed for BSP connections. It features a 90° bend with a male connection on one end and a female swivel connection on the other, providing flexibility and secure fitting in piping systems. This durable steel construction ensures reliable performance in various industrial applications.
