J PLU PLUG

SPECIFICATIONS

Type 1	Male	Standard	ISO 8434-2
Material	Steel		

Related Item: 7991-00

DESCRIPTION

The J PLU Plug is a durable coupling adapter crafted from high-quality steel, designed for reliable performance in ORFS and JIC connections. Its robust construction ensures long-lasting strength and resistance, making it an essential component for secure and efficient hydraulic system assemblies.

Item number	Pipe dim. 1	Size 1	Wp	Weight
