ADJUSTABLE 90° ELBOW FITTING ORFS M THREAD

SPECIFICATIONS

Type 1	Male	Shape	90°
Type 2	Male	Material	Steel
Connection 2 - Sealing	O-ring washer	Standard	ISO 8434-3

DESCRIPTION

The Adjustable 90° elbow fitting ORFS M thread is a steel coupling adapter designed for reliable fluid connections. Featuring male threads on both ends and an O-ring washer seal, it ensures secure, leak-resistant joints. Its 90° shape allows for versatile directional changes in piping systems, making it a durable and efficient component within the Coupling - Adapter ORFS and JIC family.
