ADJUSTABLE 45° ELBOW FITTING ORFS BSP THREAD

SPECIFICATIONS

Type 1	Male	Shape	45°
Type 2	Male	Material	Steel
Connection 2 - Sealing	O-ring washer	Standard	ISO 8434-3

DESCRIPTION

The Adjustable 45° elbow fitting ORFS BSP thread is a steel coupling designed for reliable and precise fluid connections. Featuring male connections on both ends with an O-ring washer seal, this adjustable fitting from the Coupling - Adapter ORFS and JIC family ensures secure, leak-resistant performance in hydraulic systems. Its robust steel construction offers durability and strength.

Item number	Pipe dim. 1	Size 1	Size 2	Wp	Weight
